This modern home is characterized by classic architecture, flexible and versatile rooms, and timeless furnishings with high-quality materials and technical refinements. The result is a family-friendly home in Bisamberg that combines coziness and the highest level of comfort. Built in 2012 to a high standard, this well-maintained two-story house offers comfortable living in six spacious rooms. The spacious architecture includes three bathrooms and toilets, which are ideally distributed across the two living levels. The modern underfloor heating provides cozy warmth in all rooms and contributes to a pleasant indoor climate.
